College of Engineering Chengannur Department of Computer Engineering M. Tech. CS (IP) 03CS7914 Project (Phase 2) Instructions (2022)

- 1. Follow the general instructions which we have followed in the previous sem.
- 2. All documents including presentation slides are to be approved by the guide.
- 3. The guide shall focus on the content and quality of the project and report. The coordinator shall provide the general instructions, schedule, and report format.
- 4. This sem the focus is on implementing the project design which we have completed in M3.
- 5. Normally the duration of presentation will be 20, 30, and 50 minutes for initial, mid-term, and final presentations respectively. Make all arrangements well in time for the presentation and inform the coordinator and the guide. If needed additional interim presentations also will be scheduled.
- 6. Encouraged to invite other faculty of CSE as well for the final presentation. You have the freedom to invite students and faculty from other depts. also.
- 7. The audience is expected to ask relevant questions. The questions will not harm the presenter!
- 8. The presentation should be conducted with the help of visual slides, for which beamer class of LaTeX is found to be a very good option especially if mathematical notations are involved. The slides are meant to help the presenter. Hence lengthy sentences are to be avoided, except where it is absolutely necessary.
- 9. The report should be in own language. Contents reproduced verbatim out of necessity should be cited.
- 10. You are required to mention all sources of content or information as reference. Mention acknowledgments wherever appropriate.
- 11. You might have relied heavily on one or two reference papers for completing your work. Give due acknowledgment to such references rather than a passive reference listing.
- 12. After completion of the project work, prepare one or two articles and publish in conferences or journals of repute.

- 13. Based on the work done in M3 including literature survey, system study, and design, try to publish a paper in a conference at the beginning of M4.
- 14. File name formats: 7914.xx.midterm.pdf, 7914.xx.draft.pdf, 7914.chn20csipxx.pdf (xx last two digits of your ktu reg no) for mid-term, final draft presentation report, and approved report.
- 15. A 10 day report is to be submitted on 1, 11, and 21 of every month, which covers works done during 1 -10, 11-20, 21-31 of the month.
- 16. The project file should be kept on the table in room #306, and is accessible to the student, the guide, and the coordinator.
- 17. Once a document is filed and submitted no pages or document could be removed. Corrections if required, do either in hand writing, or file a fresh modified additional copy.
- 18. All emails related to this project should have subject line starting with 7914 from you college email id.
